- Tables can also be sorted by column. Click a column title to sort by that column. Click again to sort in the other direction.
- Columns can be reordered if the order of the columns is not ideal. To move a column, click and hold on the title and move it left or right.

Quick Fills:

Quick fills: Sun to Sun   One Week   Month

- **Sun to Sun:** clicking this will auto-fill the dates to be one week between the last 2 occurring Sundays *(this is the default fill upon page load)*
- **One Week:** This is will auto-fill the dates to start exactly 1 week ago from the exact time the button was clicked. The ending date is set to the time the button was clicked. (most up to date)
- **Month:** auto-fills the dates to be between today and 30 days ago.

Sunday to Sunday charts instructions:

1. The dates are defaulted to be the most recent Sunday to Sunday interval (starting and ending at midnight), so upon page load, **click "Submit"**
2. **Scroll** down to the "**By Album**" table, where the data is already sorted in descending order by number of plays.
3. To view *only* rotation, **click** the **rotation** column title **twice** (first click sorts descending so "Everything Other Than Rotation" is at the top, second click sorts ascending so "Rotation" is at the top. Note the "Plays" column remains in descending order.
